Give a chance to the Chimpahuaylla mothers!

Dear Friends and donors

I kindly thank you for visiting our website(s), as well as for your wonderful letters and nice cards. My special thanks to Wilde Gazen or Wild Goose, a Dutch organization, for their friendship, understanding and mutual work. Wild Goose has celebrated its 50 Birthday and I would like you to know that this organization cooperates internationally with 500 projects per year. Chimpahuaylla is only one of those projects. "Kinderdagverblijf A.2007.582. At this moment and for the rest of the year we are raising funds together.

I would also like to thank the Church de Krijtberg, at Amsterdam, we have had contact with this Church for more than 22 years, my thanks for their unconditional cooperation and assistance also for the Ministry of Education, Zonal Cusco, Peru.

I would also like to recognize the artistically touch performed by Dedato Architects and Designers member of BNA, BNO for the house style, websites, logo, cards, posters, Studio Paul Baars Design Graphics and Products BNO, for the issue of the three language folder Spanish, English and Dutch, balloons and collect sheets.

Every day we are closer to achieve our goals, the construction of the Kindergarten at Chimpahuaylla in Cusco. I would not like to continue without mentioning the mothers of Chimpahuaylla, whom I consider strong and courageous they are not waiting that all fall from heaven, oh no, not at all, on the contrary, they organize themselves to sell tasty food and few garments which are done by themselves to be able to contribute in their way with the project.

The true is that with \$2 or \$3 their daily income, you cannot build an Institution for Initial Education at an altitude of 3700 mt above sea level, but we can do it, with your help and our hard work. We will achieve it. Let's cheer and celebrate that you have contributed to eradicate this children from analphabetism and despair, because the young minds of today are the empires of the future.

Few Chimpahuayllan mothers have been asked if it is difficult to live this life? Their answer was with a wide smile and shiny eyes this life is worth to live it! Therefore, dear friends, donors help us to help them. So that their children can go to a kindergarten.

When I have been asked which kind of donations do you need, my answer was: "Like the waves of the Pacific Ocean washes the Peruvian coast and by noon time they are rough and huge and by sunset their force ceases and the calm waters reaches the sands softly, tiny drops are transported by the breeze and in few seconds you feel that they are touching your skin". Exactly the

same, we need your donations as the waves of the Pacific Ocean and the tiny drops of seawater that are transported by the breeze to your skin. Foundation Colibri is happy with both. We need you and we love you for helping us to help others.

On behalf of the children and the mothers of Chimpahuaylla, Colibri Foundation in Cusco, Stichting Colibri Amsterdam my most sincere thanks for what you are about to donate and for you all who have already sent their donations, we do not doubt that later this year you will do donate again.

Foundation Colibri - Amsterdam
Liliana Rivera
Chairman

PS: Loving these children takes so short... forgetting them is taking too long.
Please donate today.
